ABSTRACT

Dr. Jack M. Schock of Arrow Enterprises conducted an archaeological reconnaissance of 70 acres for an Industrial Park expansion in Trigg County, Kentucky on May 19<sup>th</sup>, 24<sup>th</sup>, 2006. There is no Lead Agency and no SAI number assigned to this survey.

The archaeological survey was conducted at the request of Mr. Donald A. Leibee, Chairman of the Cadiz-Trigg County Economic Development Commission.

Ten (10) man-hours were spent in the field conducting this archaeological survey.

A recent historic, rural house trash dump location, a former recent rural house location, three farm buildings and 3 metal grain bins were observed. The Office of State Archaeology stated that none of these locations warranted archaeological site numbers.

No locations receiving archaeological site number were found and no additional work is recommended for this project.

## INTRODUCTION

Dr. Jack M. Schock of Arrow Enterprises conducted an archaeological survey of 70 acres for an Industrial Park expansion in Trigg County, Kentucky (Figures 1-2). The investigation was conducted on May 19<sup>th</sup>, and 24<sup>th</sup>, 2006 at the request of Mr. Donald A. Leibee, Chairman of the Cadiz-Trigg County Economic Development Commission.

This report is the result of an archaeological survey conducted to determine whether prehistoric or early historic archaeological sites will be affected by this project. The term historic is being used here to refer to pre-1950 sites. Such surveys are required on various funded or regulated projects to determine whether (1) any archaeological sites are present which will be affected by the project and (2) whether such sites meet the National Register of Historic Places criteria as expressed by 36 CFR 60.6.

The following information is quoted from 36 CFR Part 66 in (Federal Register, Vol. 42, No. 19 - Friday, January 28, 1977).

APPENDIX B - Guidelines for the Location and Identification of Historic Properties Containing Scientific, Prehistoric, Historical, or Archaeological data.

In order to notify the Secretary of the potential loss or destruction of significant, prehistoric, historical or archaeological data pursuant to sections 2,3, and 4 of the Act in a manner that will permit the Secretary to act effectively in response to this notification, it is necessary that the agency provide appropriate documentation concerning the nature and significance of all historic properties, subject to impact that may contain such data. It is recommended that such documentation be generated by agencies in the course of their planning activities carried out under the authorities of the National environmental Policy Act of 1969 (Pub. L. 91-190) (NEPA), the National Historic Preservation Act of 1966
